

# Introducing the **VINYL CLEANER** *premium*

## The Gold Standard in Ultrasonic Record Cleaning

The Vinyl Cleaner premium is the third generation of the world's first fully automatic ultrasonic record cleaning machine. Made in Germany and trusted globally, it cleans and dries both sides of a record with precision and ease.

With ultrasonic energy, microfiber rollers, and continuous filtration, your vinyl is restored at the push of a button.

## A Legacy of Engineering Excellence

In 2009, Reiner Gläss created the original Vinyl Cleaner to help friends clean their records. Launched when vinyl was nearly forgotten, it quickly became a breakthrough in high-end audio care.

What began as a one-man vision is now a globally trusted brand, with machines used by collectors and professionals in over 45 countries.

## How the Cleaning Process Works

### Ultrasonic Cleaning

A vibrating membrane creates microscopic bubbles in the cleaning fluid. These bubbles collapse with force, releasing energy that lifts dirt from the surface and grooves of the vinyl.

### Continuous Fluid Filtration

The cleaning fluid is pumped through a fine filter during each cycle. Contaminants are removed, and clean fluid is returned to the chamber. The filter is simple to replace.

### Dual Microfiber Rollers

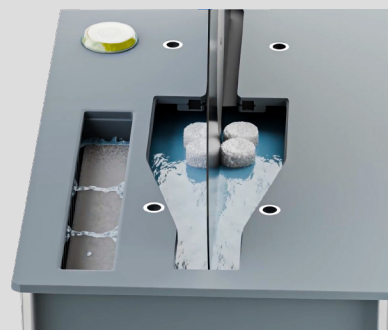

Two rollers on each side spin in opposite directions. This motion removes coarse dirt and directs it into the fluid rather than back onto the record.

### Automatic Drying

After the cleaning cycle, a fan gently dries the record in just 3 minutes — a speed unmatched by any other machine. The disc is slightly lifted for safe removal.

**STEP 01**  
Insert record

**STEP 02**  
Ultrasound and microfiber rollers

**STEP 03**  
Drying

**STEP 04**  
Remove record

## Available Colors

Crafted in four colours to suit every listening environment.

- ▶ VINYL CLEANER Black – timeless and professional
- ▶ VINYL CLEANER Grey – sleek and modern
- ▶ VINYL CLEANER White – clean and minimalist
- ▶ VINYL CLEANER Red – bold and distinctive

Bring performance and personality together in the colour that suits you best.

## Designed for Simplicity and Performance

The Vinyl Cleaner premium was built to make professional-grade vinyl cleaning simple, efficient, and reliable.

- ▶ Fully automatic operation with one-button functionality
- ▶ Cleans and dries both sides of the record simultaneously
- ▶ Compact and quiet system suitable for home or studio use
- ▶ Minimal maintenance required for everyday operation

More than a cleaning device, the Vinyl Cleaner premium is a long-term preservation solution for your analog music collection.

Recognized by the Global Audiophile Community

The Vinyl Cleaner series has received consistent praise from critics, users, and industry leaders.

- ▶ Editors' Choice Award 2012 – The Absolute Sound
- ▶ Editors' Choice Award 2013 – The Absolute Sound
- ▶ Golden Ear Award 2014 – The Absolute Sound
- ▶ PF Brutus Award 2015
- ▶ PF Writers' Choice Award 2016

It was also honored in Bentley Motors' 100th anniversary book, Exploring the Extraordinary.

The Vinyl Cleaner premium was featured in a four-page editorial celebrating its innovation and craftsmanship.

## The Man Behind the Innovation

Shy and reserved ... such terms come up repeatedly when people who meet Reiner Gläss for the first time try to describe him. First, he leaves the spotlight to his counterpart and only rarely intervenes, but when he does, it is with a distinct Swabian accent.

Encouraged by friends who struggled to clean their records, Gläss entered the world of high-end audio almost by accident. Before developing the Vinyl Cleaner, he invented the CD Sound Improver, a device that enhanced disc playback and gained popularity in Japan and the United States.

Despite his global success, he continues to work closely with his small team, committed to precision, innovation, and quiet excellence.

## Press Review (Excerpt)

"This wonderfully designed car wash for LPs accomplishes far more than I expected: reduction in noises of all kinds, and a magical lifting of yet another veil from the music. Brilliant!"

*(Sasha Matson, Stereophile Editor's Choice, 2017)*

"If you own lots of LPs and the Vinyl Cleaner Pro is within your budget, I urge you to give it a try"

*(Art Dudley, Stereophile, 2017)*

"Sieben Jahre nach seiner Markteinführung setzt der VinylCleaner immer noch Maßstäbe."

*(Amré Ibrahim, Image Hifi, 2016)*

"The Vinyl Cleaner not only transformed its noisy lead-in grooves into utterly dead-silent ones, it removed 95% of the ticks and pops, and allowed the instruments to sound more colorful and more vivid. As I said: Holy shit."

*(Art Dudley, Stereophile, 2015)*

"... in recognition of significant contributions to the audio arts in 2015 ..."

*(Brutus Award, Positive Feedback, 2015)*

"I'd give it the strongest recommendation I could come up with, but I need to go and clean some records first."

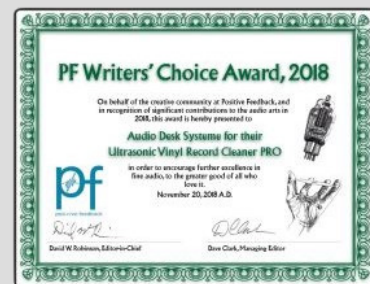

*(Alan Sircom, hifi+, 2014)*

"... this is the most user-friendly record cleaning system I have ever used."

*(Lawrence Devoe, Tone Audio, 2012)*

"It is the most effective cleaning machine that I have ever encountered."

*(Jacob Heilbrunn, The Absolute Sound, 2013)*
