

Clear Cygnus Phono is detailed without any hint of harshness and has great low frequency performance. Clear Cygnus will help bring your analog to life. If you want Cardas musicality but with a neutral tonal balance, look no further. Custom terminations including Cardas R-DIN and SME 90° DIN connections are available.

Standard Terminations: Cardas S-DIN to Cardas GRMO, or RCA to RCA. Hand soldered in Bandon, Oregon.

Design/Construction: Conductors: Matched Propagation Kevlar core, Grade 1, 99.9999% pure OFHC copper with SPN clear coat (Litz), gauge sizes scaled to Golden Ratio proportions. Cross-field layer geometry, insulated in double layered PTFE tape wrapped jacket.

Geometry: Star-Quad 4 conductor, with anti-static LDPE air-tubes bound with carbon impregnated PTFE tape wrap. Outer layer uses PTFE air-tubes scaled 1.618 times larger than the core tubes to suspend the composite shield of tinned copper and magnet wire away from the signal conductors. Finished in an ultra soft extruded TPR jacket.

Gauge: 4x25.5 AWG

Outside Diameter: 0.384"/9.76mm
