HOME CINEMA OR MEDIA-ROOM SEATING

Design driven, low-back entertainment chair, featuring the comfort and features of a high-back recliner.

FEATURES

The innovative and patented triple-motorized mechanism offers a unique experience: the backrest can be adjusted up or down to the user's preferred position, the footrest extends, the entire seat inclines, and the headrest is adjustable for optimal head support. It is available in both motorized versions (dual or triple motors) and a fixed version.

LED backlit keypads control the motorized mechanism with programmable features (light intensity, timer, etc.), allow the user to have memory settings.

SOFA LOOK THEATER COMFORT

CINEAK's designer entertainment sofas prioritize comfort without compromising on aesthetics and style.

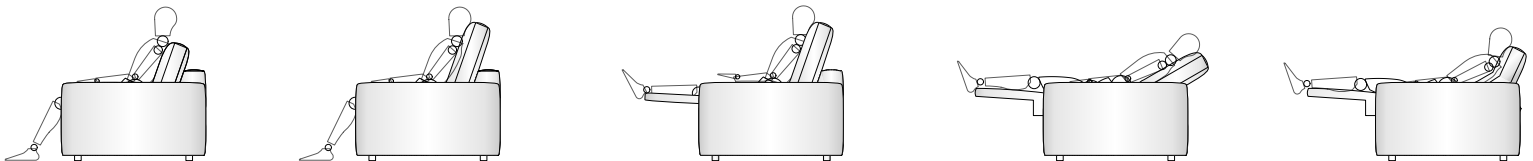

Unlike traditional fixed furniture, these sofas offer a range of adjustable features such as motorized adjustable footrest, backrest and headrest.

This adjustability allows the users, to find their ideal seating position and proper support during longer viewing sessions. The ergonomically designed cushions and high-quality materials used, also add to the ultimate experience.

One of the main advantages of CINEAK's designer entertainment sofas is their ability to optimize the viewing experience.

Fixed furniture can sometimes obstruct sightlines in a home theater, forcing viewers to strain or compromise their posture.

In contrast, CINEAK's designer entertainment sofas prioritize the optimal viewing experience. Their technological features allow users to adjust the angle of the backrest and the position of the seat, so the watching experience provides for an unobstructed view of the screen from any seating position. This enhances immersion and minimizes distractions, allowing viewers to become fully focused on the content without any discomfort.

AS A MODULAR SOFA

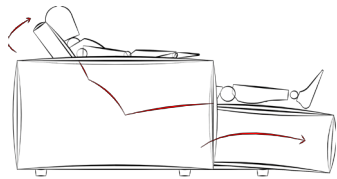

Due to its modularity, as a sectional entertainment sofa, LARGO allows for an almost unlimited number of possible seating configurations. Due to this flexibility in setups and customizations, LARGO is the ideal choice ranging from the most classic and traditional to the most contemporary environments. Due to its inviting appeal, and adjustability, LARGO is the ideal lounging solution for living, gaming or any other entertainment rooms.

MOTORIZED DAYBEDS

Unlike traditional fixed furniture, our daybeds offer a range of adjustable features, including motorized inclining, headrest adjustments and seat depth modifications. This customizable comfort ensures that viewers can find their ideal seating position, providing support to the body during long movie sessions. The ergonomically designed cushions and premium materials further contribute to a luxurious and cozy cinema, music or reading experience. Cineak's design sofas embody this perfect fusion of comfort and style, allowing homeowners to create a truly unique and visually appealing environment.

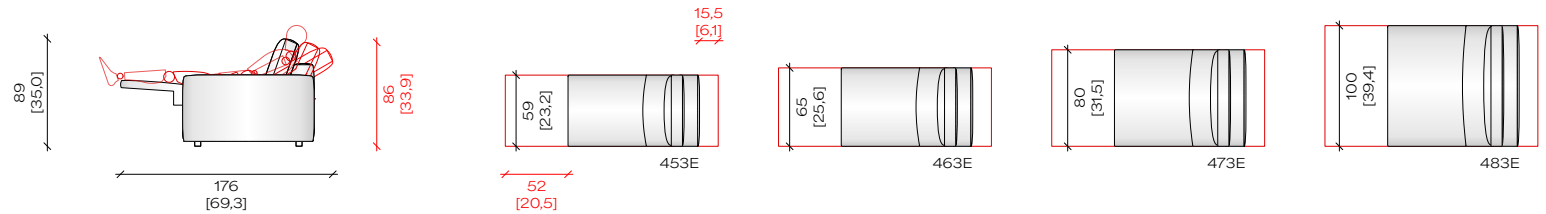

ELEMENTS

As with all CINEAK products, LARGO seating is constructed with modular components, including seats, chaises, tables, and armrests available in various standard or custom widths. These elements can be combined to create a seating arrangement that perfectly suits any space.
