

OLLIE

OLLIE

HOME CINEMA OR MEDIA ROOM SEATING

OLLIE is a modification of our LARGO model. Main differences are the extra soft padded seat cushions, the divided footrest design and a specially designed arm and raised back parts.

FEATURES

Unique triple motorized mechanism:

Ollie is fully adjustable: at the simple push of a button, the backrest motorizes up or down, to the users preferred height, the footrest goes in or out and the headrest adjusts, so one can enjoy proper head support while fully or partially inclined. Available in motorized or fixed version.

LED backlit keypads

control the motorized mechanism with programmable features (light intensity, timer, etc.), allow the user to have memory settings.

SOFA LOOK THEATER COMFORT

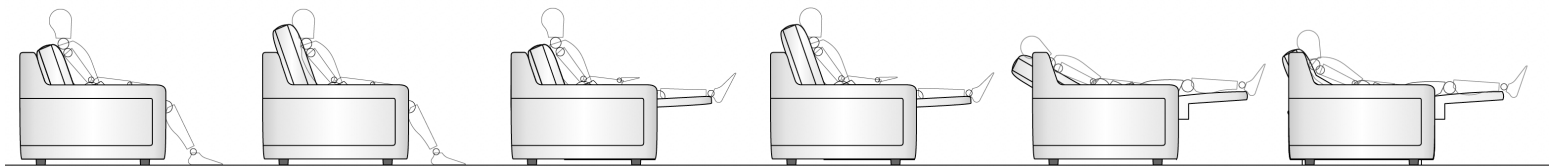

CINEAK's designer sofas prioritize comfort without compromising style.

Unlike traditional fixed furniture, these sofas offer a range of adjustable features, including motorized adjustable backrest, headrest and seating angle.

This adjustable comfort allows viewers to find their ideal seating position and provides body support during long movie sessions. The ergonomically designed cushions and high-quality materials further contribute to a luxurious and cozy cinema experience.

One of the main advantages of CINEAK's designer sofas is their ability to optimize the viewing experience. Fixed furniture can sometimes obstruct sightlines in a home theater, forcing viewers to strain or compromising their posture.

CINEAK's designer sofas, on the other hand, prioritize the optimal viewing experience. Its adjustable features allow users to adjust the angle and height of their seats to provide an unobstructed view of the screen from any seating position. This enhances immersion and minimizes distractions, allowing viewers to become fully focused on the content without any discomfort.

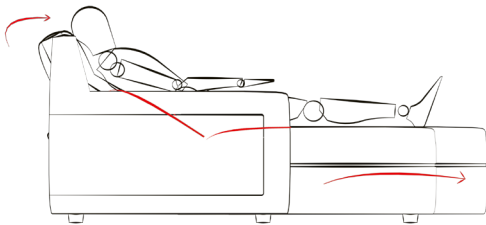

AS A SOFA

As a sectional sofa, OLLIE allows extreme modularity of volumes that invite to experience calm and relaxation. It offers full comfort and flexibility, allowing configurations going from the most classic and traditional to the most contemporary ones; central elements, corner pieces, end pieces, ottoman, chaise longue and side tables, allow full customization and makes it an ideal lounging solution.

MOTORIZED DAYBEDS

Unlike traditional fixed furniture, our daybeds offer a range of adjustable features, including motorized inclining, headrest adjustments and seat depth modifications. This customizable comfort ensures that viewers can find their ideal seating position, providing support to the body during long movie sessions. The ergonomically designed cushions and premium materials further contribute to a luxurious and cozy cinema, music or reading experience. Cineak's design sofas embody this perfect fusion of comfort and style, allowing homeowners to create a truly unique and visually appealing environment.

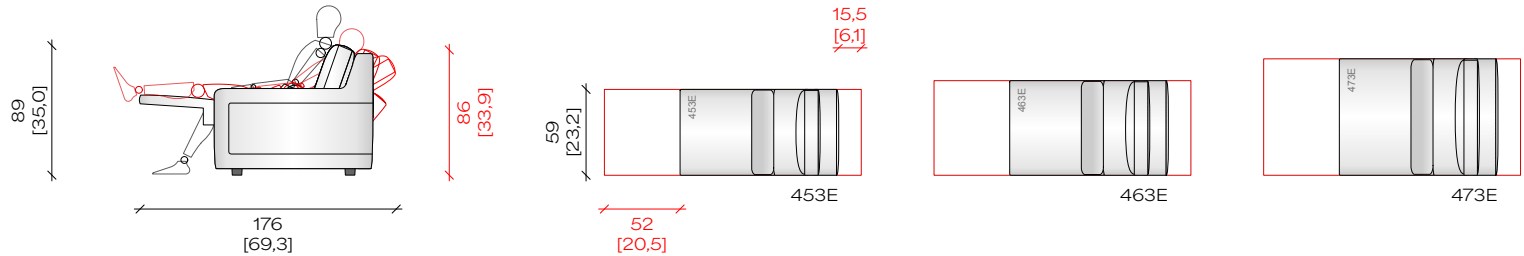

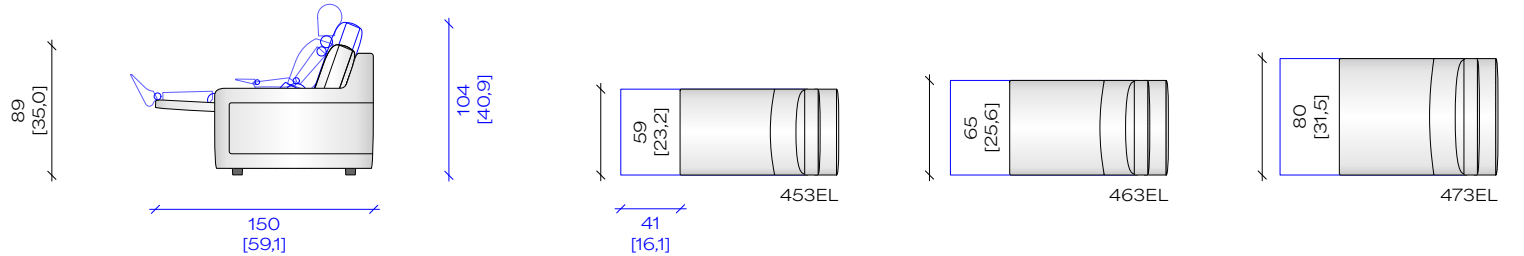

ELEMENTS

Like all CINEAK products, our OLLIE seating is modularly built and consist of different elements such as seats and arm-rests in several standard or custom widths. With these elements, one can put together any preferred seating layout which perfectly fits your space.
