# FEATURES

STRATO is equipped with a distinctive dual motorized system: the footrest can extend, the seat can incline, the backrest can recline, and the headrest can be raised—all at the touch of a button. This transforms STRATO from a standard sofa into a comfortable seat that offers the same comfort as a traditional high-back chair.

STRATO is available in a motorized or fixed version. Keypads are located on the inside of the armrest or hidden between seating parts. The STRATO PLUS version offers an additional height in head support and an aesthetically pleasing slanted back.

*LED back-lit keypads* manage the motorized system with programmable options such as light intensity and timer settings, and provide the convenience of preset and memory functions.

# SOFA LOOK THEATER COMFORT

# AS A SOFA

Embodying a minimalist and elegant aesthetic with a sleek modern design, the STRATO sofa provides a sophisticated option for living or media rooms, delivering unparalleled comfort and relaxation. Exceptionally versatile and modular, it is crafted to accommodate a wide range of layout and usage needs.

# MOTORIZED DAYBEDS

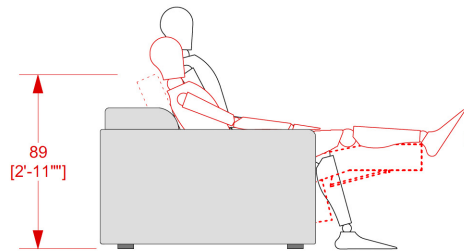

In contrast to standard stationary furniture, our daybeds boast a variety of adjustable features, such as motorized reclining, headrest adjustments, and seat depth changes. This personalized comfort allows viewers to discover their ideal sitting position, offering support during extended movie sessions. The ergonomically crafted cushions and high-quality materials enhance the luxurious and cozy experience for cinema, music, or reading. CINEAK's design sofas perfectly blend comfort and style, enabling homeowners to create a distinctively unique and visually appealing setting.
