

# SB-9

LOW PROFILE WALL MOUNTING BRACKET

# Klipsch®

KLIPSCH PROFESSIONAL | CINEMA | DATA SHEET

## PRODUCT OVERVIEW

Perfect for a clean look, the Klipsch SB-9 Low Profile Mounting Bracket is ideal for quick and easy installation. The bracket's installation is designed to allow for single person installation. The SB-9 bracket is only 2 1/4" deep, resulting in a desirable low profile form. The bracket, made using powder coated 12 gauge structural steel, accommodates a 5" x 2.75" standard VESA mounting hole pattern.

The SB-9 wall mounting bracket supports KPT series surrounds up to 80lbs (36.4kg).

Package contents include one wall mounting plate, one speaker mounting plate, two security screws and instruction sheet.
