THE 857 AT A GLANCE

Effortless power delivery of 500W per channel into four ohms and bridgeable to >1.5kW mono into 4Ω.

2 RCA, 2 x balance on XLR. Trigger on 3.5mm. 4 WBT terminals per side allowing bi-wiring.

Meridian 'Superbal' technology – converts unbalanced inputs to balanced before they enter the amplifier.

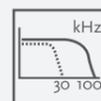

Low feedback construction provides ultra-low distortion, ensuring an unparalleled level of clarity and transparency across the audible range.

Optional rack-mount variant available.

Fan assisted cooling operating at elevated temperatures enabling silent operation in room and rack installations.

1-100kHz frequency response +/- 2dB – Perfect for hi resolution audio.

Multiple installation applications, enabled by Meridian's complimentary Design and Specification Service and the perfect complement to any passive loudspeakers.
