

ALPHA

The AST-25 Alpha iQ Floor Stand

The AST-25 Alpha iQ Floor Stand is custom made to support the Alpha iQ Streaming Powered Speakers with BluOS. The AST-25 is ideal for positioning the Alpha iQ speakers as a stereo pair in a home theatre or seated listening area. Not only are they a great way to add the Alpha iQ to your existing audio setup as elegant, floor standing statements, they are also easy to assemble and provide excellent cable management.

To set up, assemble the stands and attach the included floor spikes if the stands are placed on a carpeted area. For wood or tile floors, add the floor protector discs for ideal safeguarding. Run the Alpha iQ power cable through the stand's wire management channel to minimize cable clutter. Constructed with heavy-duty steel, the AST-25 is available in both Black and White finishes to match any interior aesthetic.
