

Designed to provide high-quality sound in your outdoor spaces, the GARDEN 7 speaker fits discreetly into your garden, on your terrace or around your swimming pool. Its ingenious design allows for 360° sound diffusion, so you can enjoy an evenly distributed sound system throughout your space.

Available in two finishes, green and grey, the GARDEN 7 blends elegantly into a flowerbed or along a path. At night, illuminate your space and create a warm atmosphere with the LED lighting built into the speaker.

IP66-rated, the GARDEN 7 is a weatherproof speaker designed to withstand rain, extreme temperatures, dust and humidity. Its robust design ensures long life so you can enjoy your music whatever the weather.

The GARDEN 7 is a passive speaker designed for both domestic and professional use. It incorporates a voltage selector to adapt to your amplifier and the number of speakers installed. This flexibility makes it the ideal solution for custom installation, whether in a private garden, a public space or a professional venue.
