

WiiM

WiiM Sound Lite

1. Meet WiiM Sound Lite

WiiM Sound Lite is a compact, Hi-Res smart speaker designed for music lovers who want **studio-grade sound, open-platform streaming, and whole-home expandability**—without an on-device display or bundled voice remote. It delivers up to **24-bit/192 kHz** playback, **100W peak** output, AI **RoomFit™** room correction, and seamless casting from your favorite apps. Works standalone, in **true L/R stereo pairs**, or as part of a **whole-home WiiM** system.

What's different vs. WiiM Sound

- **No 1.8" round touch screen** (display-free design).
- **No WiiM Voice Remote 2 Lite in the box** (control via app/voice/top-panel).
All other core acoustics, streaming, connectivity, multi-room, and EQ features remain the same.

60-second pitch

- **Hi-Res, room-filling audio** — 4" woofer + dual 1" tweeters, **100W peak**, up to **24-bit/192 kHz**, gapless.
- **Open by design** — Cast or connect your way: Google Cast, Spotify/TIDAL/Qobuz Connect, Alexa Cast, DLNA, Roon/LMS.
- **Smarter in any room** — AI RoomFit™ adapts sound to your space.
- **Grows with you** — Stereo pairing, multi-room, and ecosystem-ready with WiiM Amp/Pro/Mini/Ultra/Sub Pro.

2. Key Features

- **Premium 2-Way Acoustic Architecture**
Custom, independently tuned drivers for high and mid/low bands with a precision crossover. Each range works in its sweet spot for low distortion, true-to-source timbre, rich detail, and fatigue-free listening.
- **Material-Matched Drivers**
4" Paper-Cone Woofer + Dual 1" Silk-Dome Tweeters — Paper delivers tight, natural mid-bass; silk provides smooth, extended highs and wide dispersion—yielding a coherent soundstage that is clear, refined, and never harsh.
- **Hi-res, Room-filling Audio**
Up to 24-bit/192 kHz, gapless playback, and 100W peak power for lifelike dynamics.
- **AI RoomFit™**
Measures your space and auto-corrects response for a richer, more balanced sound wherever you place it.

- **Open & Compatible**
Stream inside the WiiM Home App or cast from native app via **Google Cast, Spotify/TIDAL/Qobuz Connect, Alexa Cast, DLNA, Roon, and LMS** – no lock-in; join Google Cast or Alexa **speaker groups** for whole-home sync.
- **WiiM Home App**
Central control hub for managing music, devices, presets, and EQ settings.
- **Smart Living Built-in**
Smart Presets, Music Alarms & Routines, multi-room grouping, and line-in rebroadcast to every room.
- **Easy Expansion**
Compatible with **WiiM Amp series, Pro, Mini, Ultra, Sub Pro**, and WiiM edition speakers, ensuring seamless integration for an unparalleled whole-home audio experience.
- **Hands-Free Control**
Works with Alexa or Google Assistant (via compatible devices). WiiM Voice Remote 2 Lite is included for one-press control and push-to-talk voice.
- **Sound Shape by You**
Customize your sound with versatile EQ options to suite your environment and listening content.
- **Continuous Updates**
Regular firmware updates unlock new features, services, and audio enhancements.

3. Sound & Cinema

- **Driver Array:** 4" long-throw woofer + dual silk tweeters for wide dispersion, precise imaging, and natural mids/highs.
- **Stereo Pairing: Double Up. True Stereo. Bigger Stage.** Pair two for dedicated L/R channels—wider soundstage, clearer vocals, pinpoint imaging—with a few taps in the WiiM Home App.
- **Cinematic roles:** With compatible WiiM components, use Lite as surround or center to lift dialogue and deepen immersion.

4. Streaming & Control

- **WiiM Home App (iOS/Android):** Browse 20+ music services, your library/home share, internet radio, podcasts; manage groups, EQ, alarms, and updates. Windows/MAC/Apple TV/Google TV apps with limited functions.
- **Cast / Connect:** Google Cast • Spotify Connect • TIDAL Connect • Qobuz Connect • Alexa Cast • DLNA • Roon • LMS.
- **Direct From Apps:** Start in Spotify/TIDAL/Qobuz/YouTube Music/Amazon

Music/etc., then select WiiM Sound—no app-switching.

- **Control Your Way:** Top-panel buttons • WiiM Home App • Alexa/Google Assistant (via compatible devices).

5. Smart Living Features

- **Smart Presets:** One tap starts your exact setup—favorite playlist/radio or input—with chosen volume, EQ, shuffle/repeat, and play-duration. Launch from the screen, the app, or the remote.
- **Music Alarms & Routines:** Schedule wake-ups and wind-downs from presets, services, your home share, or Line-In. Set days, volume, and duration; create multiple alarms.
- **Whole-home Music:** Group WiiM Sound with other WiiM devices for perfectly synced playback in every room—or set different music for each room. Re-broadcast Line-In (e.g., turntable/TV) across the house.
- **Open Platform:** Can also join Google Cast or Alexa speaker groups for multi-room sync alongside third-party devices.

6. Design & Placement

- **Compact, minimalist form** fits shelves, counters, and nightstands; wall-mount ready to save space. (Display-free front keeps the look clean in any room.)

7. Use Cases

- **Hi-Fi Music:** Enjoy lifelike detail at up to 24-bit/192 kHz with gapless playback.
- **Living Room Cinema:** Double up for true L/R stereo and a wider soundstage. Or assign WiiM Sound Lite as a surround pair or center channel (with compatible WiiM components) for a more immersive home-theater setup.
- **Kitchen & Bedrooms:** Voice control; alarms wake you with your favorite station; day/night presets.
- **Work-from-Home:** App-based EQ and fast source switching; focus playlists on tap.
- **Whole-Home Parties:** Group rooms instantly and keep the vibe consistent—or set different music per space.
- **Turntable Night:** Connect via Line-In and rebroadcast to the entire house.

8. Ecosystem & Expansion

- **Plays With Everything:** WiiM Sound Lite integrates with WiiM Amp, Pro, Mini, Ultra, Sub Pro, and WiiM edition speakers for scalable, synchronized audio throughout the home.
- **Open By Design:** Your apps, your casting, your speakers—WiiM doesn't lock you in.

9. Key Messages & Taglines (ready for web/retail)

- **Hi-Res Power, Precisely Tuned.**
- **Double Up. True Stereo. Bigger Stage.**
- **Immersive Sound, Clear Dialogue.**
- **Open by Design. No lock-in.**
- **One Tap Starts. Right-on-time Music.**

10. At-a-glance Comparison Hooks (vs. Typical Smart Speakers)

- **Hi-Res 24-bit/192 kHz with gapless playback**
- **AI RoomFit™ automatic room correction**
- **Open platform (Cast/Connect/DLNA/Roon) + Google/Alexa groups**
- **Optional Voice Remote (not included) for couch control + presets**

11. Tech Specs, Price, and Availability
