

Stream™ 10 Subwoofer Cable

This highly flexible 25-gauge mono audio cable utilizes Wireworld's patented DNA HELIX conductor geometry with 100% shielding and proprietary COMPOSITELEX 5 insulation to improve the fidelity of consumer and professional audio systems. The advanced design features of this RCA to RCA subwoofer cable were developed through listening tests that compared prototype cables to virtually loss-free direct connections between components.

DESIGN
DNA HELIX®

SIGNAL CONDUCTORS
2 Conductors · 8 Insulated Strands
Gauge: 25AWG | 0.16 sq. mm

CONDUCTOR MATERIAL
Oxygen-Free Copper

INSULATION
COMPOSILEX® 5

PLUG CONTACTS
24K Gold-plated

PART CODE: SIM10
