

XGIMI TITAN 4K ULTRA RED

4K 5000 Lumens of Professional Performance

4K 5000-Lumen Pro Brightness

Combines 5000 ISO Lumens with 4K resolution in a compact design that's budget-friendly for small businesses.Crisp, vibrant visuals cut through ambient light, delivering perfection for work and play.

Advanced 0.78" HEP Imaging Chip

Engineered for large-format brilliance, this advanced chip ensures razor-sharp detail and true cinematic scale, from spreadsheets to epic landscapes.

Automated Lens Shift Module by XGIMI

Engineered in-house to solve installation challenges, especially for ceiling-mounted setups. Unlike traditional projectors requiring manual focus and keystone adjustments after every shift, our one-click solution seamlessly integrates autofocus, auto keystone, and auto lens shift.

XGIMI First Self-Developed AI Processor

Powered by XGIMI's first self-developed 4K AI processor, this system enhances every frame in real time for sharper details, optimized contrast, and true-to-life colors - delivering professional-grade 4K visuals.

Immersive 3D Projection Support

Experience true theater-style 3D movies with full HD 3D format support - a premium viewing feature rarely available in most ultra-bright projectors.

Remark:
1. The brightness data is from the XGIMI Laboratory. Actual product brightness may differ based on the specific test software version, testing environment, and product version.
2.All parameters listed on this page are measured in a controlled test environment before the product is mass-produced. The results may vary based on individual user experiences, including different environments, usage conditions, and firmware versions.
