

PROJECTOR LIFT

PROJECTOR LIFT PARTLY OPEN

The projector lift is a versatile and innovative product that enables the installation of the projectors in environments where particular aesthetical solutions are needed.

The product has been developed to be installed inside false ceilings in order to hide projector, lift and cable, thus granting the best aesthetic and practical solution.

FALSE CEILING FIXING SYSTEM

Moreover, the lift is supplied with a particular system that allows an easy fixing of a panel of your false ceiling by the threaded bars whose height adjustable.

One more interesting element of this lift is a CABLES GATHERING SYSTEM with a raceway where to put the cables of the projector, so they will be hidden and tidy gathered together when the projector lift is going up.
